

BIOGRAPHY

Lorraine Martin

Lorraine Martin was named as Vice President of C-130 Programs, Lockheed Martin Aeronautics, in December 2010. In this role, Ms. Martin is responsible for all aspects of Lockheed Martin's C-130 airlift line of business, including new production, development, sustainment, modifications and upgrades. In production since 1954, the C-130 is longest continuously running military aircraft production line in aviation history with government and commercial operators in more than 70 nations around the world.

Most recently, Ms. Martin was the Vice President of the C-5 Program at Lockheed Martin Aeronautics. In this position, she was responsible for overall operations and leadership of the C-5 Avionics Modernization Program (AMP), Reliability Enhancement and Re-engineing

Program (RERP), Legacy Fleet Sustainment and Depot Services program, and the Large Aircraft Infrared Countermeasures (LAIRCM) program.

Ms. Martin was the Vice President, Flight Solutions, Lockheed Martin Simulation, Training & Support, responsible for aircrew training programs for the U.S. Air Force Special Operations Command, C-130 aircrew training; F-16, F-22 and F-15 pilot training; flight simulation systems for the U.S. Navy and Marine Corps; and the F-35 Lightning II training system. In addition, Ms. Martin led the expansion of Lockheed Martin's training business to various international training contracts.

Ms. Martin began her Lockheed Martin career at Unisys Defense Systems in 1988 as the program manager for computer security contracts in support of the Strategic Defense Initiative and the F-23 Aircraft program. Since then she has held several other positions with the corporation including Vice President and Deputy of the Lockheed Martin Integrated Systems & Solutions and Vice President, Aerospace Information Operations.

Prior to her Lockheed Martin career, Ms. Martin served as an officer in the United States Air Force holding various leadership positions for software intensive technology and development programs, with a focus on computer security and Expert Decision Systems.

Ms. Martin has a Bachelor of Arts in Computational Mathematics from DePauw University and a Master of Science in Computer Science from Boston University and is a Lockheed Martin Certified Program Manager.
